**DETAILED ACTION**

***Drawings***

1. The drawings were received on 4/26/10. These drawings are acceptable.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 21 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
4. Claim 21 recites the limitation "the subject" in last line. There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1-18 and 20-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gutta et al (WO 02/071315) in view of Liu (6,553,281) and Jeong (6,348,928) for the same reasons as set forth in the last office action, dated 8/18/10.

With respect to the newly amended limitation, column 8 of Gutta et al already discloses the concept of such confusion due to a change in the subject's position (e.g. failed facial recognition).

***Response to Arguments***

7. Applicant's arguments filed 11/18/10 have been fully considered but they are not persuasive. In response to applicant's arguments on page 8 of the Remarks against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

Regarding applicant's argument that neither Gutta et al nor Jeong discloses the means to sense confusion of the subject, it was clearly stated in the previous office action that Gutta et al discloses all these means in Figure 2 and column 8. It is true that Jeong does not disclose any sensing of changes of the subject that causes the device to confuse the subject as that claimed by the Applicant. However, examiner does not rely on Jeong to teach such capabilities because they are already disclosed in Gutta et al. Jeong merely provides the motivation that it would have been obvious to one of ordinary skill in the art at the time the invention was made, having both references of Gutta et al and Jeong before him/her, to modify the display system of Gutta et al to be upgraded as a warning apparatus by simply utilizing a visual display to warn the subject of possible out of ordinary events to include the same warning output means and message processing equipment as specified in claims 1-18 and 20-22. With an upgraded warning system, one of ordinary skill in the art would have had no difficulty in applying warning message processing such as audible sound, flashing light, and text message to any unusual situations by displaying a warning on the display means 24 to the subject 10, as illustrated in Figure 1 of Gutta et al, since warning message processing is a necessary and well known technique for any monitoring system.

***Conclusion***

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
